When: March 31, 2026, 13.00–14.30 a.m. CET

Where: Křížkovského 10, Room 2.25

Online connection: available [here](#) (MS Teams)

Objectives of MSCA Postdoctoral Fellowships

Postdoctoral Fellowships (PF) action targets early-career researchers holding a PhD who wish to carry out their research activities abroad, acquire new skills and develop their careers. MSCA PF help researchers gain experience in other countries, disciplines and non-academic sectors.

Why to engage with Palacký University (UP)

- UP is one of the top Czech universities according to international rankings
- UP is holding the European Commission's HR Excellence in Research Award
- UP is part of European universities networks (AURORA) fostering international collaboration
- UP provides modern infrastructure in various disciplines of natural as well as social sciences
- UP offers essential services to its employees, including Social Security and Health insurance, childcare services or employees benefits
- UP is endowed with higher chances to succeed in MSCA PF due to WIDERA schemes within Horizon Europe

What will you learn?

- What is MSCA PF and who is it intended for?
- What are the basic conditions and time requirements?
- What support is available for the project preparation?
- What are the experiences of current UP MSCA Fellows?

The meeting is informational and non-binding.

The aim is to provide an overview of this project scheme.
